Price: \$6,995.00

Description

2026 7x16 Aluminum Tube Top ATV Utility (7K TA)

The 2026 7x16 All-Aluminum Tube Top ATV Utility trailer offers a high-performance, lightweight hauling solution engineered for maximum efficiency. By utilizing structural aluminum, this trailer drops its empty weight to a nimble 1,650 lbs, completely unlocking a massive 5,350 lbs of net payload capacity. It is a premium, low-maintenance asset designed for powersports riders, landscapers, and property owners who demand top-tier utility.

The Premium Aluminum Advantage

- **Maximized Payload:** The lightweight frame allows you to dedicate more of your 7,000 lb GVWR to your actual equipment and cargo rather than the trailer itself.
- **Corrosion Resistance:** Aluminum naturally resists rust and deterioration from winter road salt and harsh weather, keeping maintenance minimal and preserving a clean look.
- **Long-Term Resale Value:** Premium aluminum builds hold their structural integrity and aesthetic appeal beautifully over time, translating to an exceptionally high market value down the road.
- **Tow Vehicle Efficiency:** Lower curb weight reduces strain on your vehicle's transmission and improves fuel economy on long highway haulages. It is also incredibly easy to maneuver by hand when unhooked.

Multi-Access Loading Architecture

- 5' Aluminum Side-Storing Ramps: Maximize every inch of the 16-foot deck. Load two full-size ATVs sideways from the left or right side, then pull a massive UTV or zero-turn mower straight up the rear. The ramps lock securely into the perimeter rails for clean, quiet storage.
 - 2,200 lb. Rated Aluminum Ramp Gate: Heavily reinforced to handle up to 2,200 lbs, this 4-foot rear gate drops and lifts with minimal physical effort while easily supporting heavy commercial machinery.
 - Structural Tube Top Rail & Uprights: Built with a fully welded 2" x 2" aluminum tube top rail and structural uprights, creating a rigid perimeter cage that eliminates frame flex under heavy loads.
-

Specifications & Technical Data

Dimensions 7' Wide x 16' Long (81.5" True Width Between Fenders)

GVWR 7,000 lbs

Curb Weight 1,650 lbs

Net Payload Capacity 5,350 lbs

Main Frame / Crossmembers 3" x 2" x 3/16" Aluminum Angle / 3" Aluminum Channel

Top Rail & Uprights 2" x 2" Aluminum Tube / 2.5" x 1.25" Tube

Axles (2) 3,500 lb. Aluminum Spring Brake Axles w/ Easy Lube Hubs

Wheels & Tires 15" 5-Hole Premium Aluminum Wheels | ST205/75R15C 6-Ply Radials

Decking 2" Premium Pressure-Treated Pine

Premium Infrastructure Included

- Teardrop Smooth Aluminum Fenders: High-grade aluminum wheel wells that match the premium architectural look of the frame while protecting your cargo from road spray.
 - Set-Back Tongue Jack: The 2K jack is structurally recessed into the 4" x 2" aluminum tube tongue, providing massive clearance to drop your truck's tailgate without hitting the handle.
 - Full LED Lighting Package: High-visibility, low-draw DOT-compliant LED perimeter lights are completely sealed and safely recessed into the frame to protect them from loading impacts.
 - Integrated Stake Pockets: Heavy-duty perimeter stake pockets give you infinite tie-down configurations and allow you to quickly slide in custom sideboards for loose bulk cargo.
 - Complete Safety Braking System: Outfitted with electric brakes on both axles, a round 7-pin blade connector, and a full emergency breakaway system (battery, switch, and lanyard) for total highway safety.
-
