Price: \$3,795.00

MSRP: \$3,853.00

Description

The Bulk-Hauling Beast: 2027 Sure-Trac 6x12 Steel High Side (Upgraded 2ft Walls)

Most utility trailers give you a suggestion of a side rail. This one gives you a vault. We took the standard Sure-Trac Steel High Side and upgraded it with factory 24-inch (2ft) solid steel walls. This isn't just a utility trailer; it's a high-volume bin on wheels.

If you're hauling mulch, brush, demolition debris, or firewood, you know the frustration of standard 13" sides. This 2-foot setup allows you to stack higher, haul more, and stop worrying about your load spilling across the Parkway.

Why the "2-Foot High Side" is a Game Changer

- **Maximum Containment:** The 24" solid steel sides turn this trailer into a "mini-dump" for bulk materials. It's the perfect middle ground for the pro who needs volume but doesn't want the weight or cost of a hydraulic dump trailer.
- **The "Fold-Flat" Advantage:** The HD ramp gate features a spring-assist (one-handed operation) and a fold-flat design. When you're towing empty, the gate lays flat on the deck, cutting wind resistance and saving you serious fuel money.
- **Built Like a Tank:** Sure-Trac uses an Industrial Grade Polymer Finish over a multi-stage pre-treatment. It's designed to handle the abrasive nature of gravel and debris while fighting off North Jersey road salt.

- Tailgate Clearance: The jack is set back on the tongue, meaning you can actually drop your truck's tailgate while hitched without crunching your equipment.
-

Key Features & Upgrades

- 24" Solid Steel Sides: Upgraded height for maximum volume and cargo security.
 - 4" Integrated Tie-Down Rail: Reinforced top rail provides infinite tie-down points for tarps and straps.
 - HD Tread Plate Fenders: Built to handle the dings and dents of a real job site.
 - Full LED Lighting: DOT compliant and tucked into a sealed harness for "plug-and-play" reliability.
 - PlexCore Board Retainers: Front and rear retainers make it easy to swap deck boards years down the road.
-

Technical Specifications

GVWR 2,990 lbs
Curb Weight 1,330 lbs (Upgraded Side Weight Included)
Net Payload 1,660 lbs
Deck Dimensions 6' Wide x 12' Long
Axle 3,500 lb. Spring Idler w/ Easy Lube Hubs

Side Height 24-Inch Solid Steel

If you're hunting for a 6x12 High Side Utility Trailer in North Jersey, this is the highest-spec unit on the market. Perfect for landscaping crews, roofers, or property owners who need more than just a flat deck.

Ready to Hit the Road: We include a temporary license plate with every purchase so you can get straight to work.

Pricing & Payments: The listed price reflects a Cash/Check discount. Credit or Debit cards are welcome with a 3% processing fee.

Tax Info: NJ residents are subject to 6.625% sales tax at the time of purchase. Out-of-state buyers will pay their local sales tax when registering the trailer in their home state.

Accuracy Check: We move inventory fast and occasionally use "stock" images of the same model for speed. Give our team a call to confirm the exact specs and options on this specific unit.
