Description

XL SE Car Hauler Trailer

The XL SE Car Hauler Trailer blends strength, style, and smart design to offer a reliable enclosed trailer solution for car haulers. With a rugged build, clean screwless exterior, and premium standard features, it's engineered for performance on every haul.

Key Benefits

16" On-Center Crossmembers, Wall Studs, and Roof Bows — Delivers Structural Strength

This uniform framing supports the trailer floor, walls, and roof for lasting durability.

16" Ramp Extension Flap — Smooth Vehicle Entry and Exit

Improves load angles for low-profile vehicles and protects the ramp from scraping.

VHB Bonded, Screwless Exterior — Sleek and Secure Finish

Enhances visual appeal while reducing seam exposure and water intrusion risk.

Beavertail and Heavy-Duty Recessed D-Rings — Built for Secure Car Transport

Allows easier loading and provides fixed tie-down points to keep vehicles in place.

Why Choose a Cargo Express XL SE Car Hauler Trailer?

Overview

The XL SE Car Hauler Trailer is built with professional-grade specifications for serious haulers. Whether you're towing a collector car, show vehicle, or track machine, this enclosed trailer provides a strong foundation, smooth ride, and sharp appearance. It's an ideal car hauler trailer for owners who value both performance and presentation.

Interior Features

Inside, the XL SE includes standard recessed D-rings for dependable cargo securement and a beavertail design to ease the loading of low-clearance vehicles. Each unit includes a 12V dome light for interior visibility, along with a clean and open plywood wall and floor finish that's ready for upgrades.

Exterior Features

The exterior is defined by its screwless VHB-bonded panels that deliver a clean, rivet-free surface. This design reduces maintenance and enhances the trailer's long-term appearance. LED lighting, aluminum fenders, and radial tires come standard. A ramp with an integrated 16" extension flap further simplifies loading, making it especially effective for cars with low ground clearance.

Standard Equipment You Can Trust

Each trailer rides on your choice of two 3,500 lb., 5,200 lb., or 7,000 lb. drop spring brake axles, depending on your capacity needs. The frame is reinforced with 16" on-center crossmembers, wall studs, and roof bows for rock-solid construction. It's all backed by Cargo Express's commitment to quality and performance for enclosed trailers designed to haul cars safely and efficiently.
