Price: \$2,625.00

Description

2026 Sure-Trac 5x10 3K Steel High Side Utility Trailer

The Sure-Trac 5x10 Steel High Side utility trailer is built for applications requiring full cargo containment. Unlike traditional open-rail utility trailers, this model features 13-inch solid steel sides to secure loose materials like mulch, topsoil, construction debris, or equipment. With a 2,990 lb. GVWR, this trailer provides a 1,930 lb. payload capacity. It is light enough to be towed by most trucks, SUVs, and crossovers without requiring an auxiliary electric brake controller.

Capacities & Dimensions

- GVWR: 2,990 lbs
- Curb Weight: 1060 lbs
- Payload Capacity: 1,930 lbs
- Deck Dimensions: 5' Wide x 10' Long (120" Deck Length)
- Width Between Fenders: 61.5"
- Sides: 13" Solid Steel + 4" Integrated Tie-Down Rail

Technical Specifications

Tongue 3" Steel Channel
Crossmembers 3" x 2" x 3/16" Steel Angle
Decking 2" Pressure-Treated Pine
Axle 3,500 lb. Spring Idler Axle with Easy Lube Hubs
Tires ST205/75R15C 6-PLY Radials

Rear Gate 4' Fold-Flat Spring-Assist Ramp Gate with Grab Handle
Gate Pins Self-Retained (Attached to Frame)
Tie-Downs (4) 1/2" Internal D-Rings
Tongue Jack 2K Set-Back Jack
Coupler 2" A-Frame (16" Coupler Height)
Electrical Flat 4-Pin Plug / Full DOT LED Lighting
Finish Industrial Grade Polymer Finish

Structural Design & Features

1. Solid Steel Sides and Perimeter Rail

The 13-inch solid steel sides provide containment for loose loads and eliminate the need for aftermarket wood sideboards. A 4-inch tie-down rail runs continuously along the top of the steel sides, providing multiple anchor points for securing straps, ropes, or cargo nets.

2. Multi-Position Fold-Flat Ramp Gate

The 4-foot rear ramp gate includes a spring-assist mechanism and an integrated handle to simplify lifting and lowering.

- **Fold-Flat Utility:** The gate can fold forward to lay flat against the wood deck. This design eliminates aerodynamic drag when traveling empty and allows you to haul longer cargo that extends past the rear deck.
- **Secured Pins:** The gate locking pins are tethered directly to the frame so they cannot shake loose on the highway or be misplaced on the job site.

3. Standard 15" Commercial Running Gear

This model utilizes a full-size 3,500 lb. axle scaled to ST205/75R15C 6-ply radial tires. Running on 15-inch commercial tires instead of smaller utility tires ensures better highway tracking, reduced tire wear, and stable ground clearance.

4. Practical Details

- **Set-Back Tongue Jack:** The jack is mounted behind the A-frame coupler rather than right at the tip. This positioning allows you to drop your truck's tailgate or open your SUV's rear hatch without hitting the jack handle.
- **Board Retainers:** Built with front and rear steel board retainers to make replacing the 2x6 pressure-treated decking straightforward if wood panels wear out down the road.
- **Storage and Wiring:** Includes a frame-mounted spare tire carrier and a fully enclosed LED lighting system with a flat 4-pin plug.

Notes:

- **Pricing:** Cash/Check price listed.
- **Processing Fees:** 3% Credit Card processing fee applies where applicable.
- **Documentation:** Temporary license plate included with all trailer purchases.
- **Sales Tax:** NJ residents pay 6.625% sales tax at purchase. Out-of-state buyers pay applicable sales tax when registering the unit in their home state.
