2027 Sure-Trac 7x14 SA Tube Top Utility Trailer

Type	Trailer or Truck Bed	Category	Utility Trailer
Stock#	9116	Location	Roxbury Trailers
Year	2027	Status	Available
Condition	New	Manufacturer	Sure-Trac
Model	7x14 SA Tube Top Utility Trailer	Floor Length	168in / 14ft
Floor Width	84in / 7ft	Floor Height	18in / 1ft 6in
GVWR	2990	Weight	1420
Payload Capacity	1570	Axle Capacity	3500
Color	Black	Fenders	Square Rolled Steel Tread Plate
Coupler	2" Ball	Jack	2k Set Back
Pull Type	Bumper	Axles	1
Suspension Type	Leaf Spring Suspension	Construction	Steel

Warranty	3-Year Frame and Component Overall Protection 1-Year Tire Hazard and Abuse Protection 5-Year Standard Tire Warranty 5-Year Axle and Suspension Warranty	Length	209in / 17ft 5in
Brakes	No	Lights	LED
Tires	ST205/75R15C 6-PLY	Gate	Yes
Load Securement	Stake Pockets Tube Rail	Frame	3" x 2" x 3/16" Steel Angle

Price: \$3,150.00

Description

2027 Sure-Trac 7x14 Tube Top Utility Trailer (Single Axle / 2,990 lb. GVWR)

Extra-Wide 81.5" Deck Clearance, 2" x 2" Tubular Top Rail, & Spring-Assisted Fold-Flat Ramp Gate

The 2027 Sure-Trac 7x14 Tube Top Utility Trailer is built for operators who need maximum deck width and structural integrity in a nimble single-axle setup. Engineered with a full-seam welded 2" x 2" square steel tube top rail and tube uprights, this open hauler delivers superior frame stiffness compared to standard angle-iron utility designs.

Featuring an extra-wide 81.5-inch clear deck width between the fenders, this 14-foot platform easily accommodates wide commercial zero-turn mowers, full-size ATVs, side-by-sides, or bulky landscape supplies without cramming tires against fender walls.

Key Capacities & Dimensions

- GVWR: 2,990 lbs (Single Axle Class)
- Curb Weight: 1,420 lbs
- Net Payload Capacity: 1,570 lbs
- Bed Dimensions: 81.5" Clear Deck Width (Between Fenders) x 168" Length (7' x 14')
- Side Height: 13" High Top Rail
- Overall Footprint: 209" Overall Length / 18" Deck Height / 16" Coupler Height
- Ramp Gate: 4' Heavy-Duty Fold-Flat Ramp Door with Spring Assist & Grab Handle

Technical Specifications

Feature Specification

Main Frame 3" x 2" x 3/16" Heavy-Duty Steel Angle Chassis
Top Rail & Uprights 2" x 2" Structural Steel Tube (Full-Seam Welded)
Crossmembers 3" x 2" x 3/16" Steel Angle
Tongue 3" Structural Steel Channel A-Frame
Decking 2" Pressure-Treated Pine Decking with Front/Rear Board Retainers
Running Gear 3,500 lb. Premium Spring Idler Axle with Easy Lube Hubs
Wheels & Tires ST205/75R15C 6-PLY Radial Tires / 15" 5-Lug Wheels
Fenders Square Rolled Steel Tread Plate Fenders
Ramp Gate 4' Fold-Flat HD Ramp Gate with Spring Assist & Self-Retained Pins
Tie-Down System Perimeter Integrated Stake Pockets
Coupler / Jack 2" A-Frame Ball Coupler / Setback 2,000 lb. Zinc-Plated Jack
Cargo Accessories Pre-Welded Side Spare Tire Carrier
Electrical / Lights 4-Way Flat Molded Plug / Full DOT-Compliant LED Lighting Package
Finish High-Gloss Industrial Polymer Powder Coat (Black)

Core Performance & Design Highlights

1. Extra-Wide 81.5" Deck Width Between Fenders

Unlike narrower 6-wide utility trailers that restrict wide mower decks or wide-track ATVs, this 7-wide configuration provides 81.5 inches of clear loading width. You can drive wide equipment straight onto the pine deck with plenty of clearance on both sides.

2. Rigid 2" x 2" Structural Steel Tube Top Rail

Traditional utility trailers utilize light angle-iron top rails that flex or bow outward under strap tension or equipment contact. Sure-Trac constructs this frame with a continuous 2" x 2" steel tube upper rail welded solid to tubular uprights, forming a rigid truss structure that holds up to daily commercial use.

3. 4' Spring-Assisted Fold-Flat Ramp Gate

Loading mowers and machinery is smooth and low-effort thanks to the integrated spring-assist ramp assembly. Built with a heavy grab handle and self-retained locking pins, the gate folds completely flat onto the trailer deck when towing empty—eliminating wind drag on the highway and boosting tow-vehicle fuel economy.

4. Jobsite Utility Infrastructure

- **Setback Jack:** Positioned safely behind the coupler on the A-frame tongue, allowing you to drop your truck's tailgate completely without striking the jack handle.
 - **Enclosed Wiring:** All wiring is routed internally inside the tubular frame members, shielding electrical harnesses from gravel, brush, and road salt.
 - **Versatile Securing:** Built-in perimeter stake pockets make securing straps, chains, or custom sidewall extensions fast and simple.
