Description

This 2027 ATC ROM 550 24' aluminum enclosed car hauler in Silver is a premium, race-ready trailer built for serious car and equipment hauling. A full perimeter aluminum frame keeps weight down without sacrificing strength, while aluminum ceiling and walls with 40" BedRug-lined lower panels protect your cargo from scuffs. The premium escape door with removable fenders adds a convenient side exit even with a vehicle loaded, and the aluminum slide-out step and rear paddle latches make everyday use easier. Inside, a 3-airline track floor and cabinet package give you tie-down and storage options, and the rubber coin floor holds up to heavy foot traffic. A 50 amp wiring package with shore cord powers your setup at the track or job site, while the insulated roof and ceiling help control temperature inside. On the road, a spread axle with 5,200 lb axles, electric brakes, and torsion suspension deliver a stable, controlled tow, and the extended tongue, rear spoiler, and winch plate in the floor round out a trailer built for enthusiasts and professionals alike. With a 10,000 lb GVWR, this ATC ROM 550 enclosed car hauler is priced at $54,999.
