Description

This 2027 Liberty 7 x 14 ft utility trailer packs the same heavy-duty features as its longer siblings into a more compact, easier-to-store package. An 83 in wide deck with a tube top rail perimeter provides a stable, secure platform for ATVs, UTVs, or general equipment, and the HD spring-assist ramp gate takes the effort out of loading powered equipment. Dual 3,500 lb axles support a 7,000 lb GVWR with a 5,150 lb payload capacity, and brakes on both axles provide reliable stopping power at full load. EZ lube hubs make routine hub maintenance quick, and a sealed wiring harness protects against moisture and corrosion over time. A tire mount keeps a spare on hand, and the 2 5/16 in adjustable coupler fits a wide range of tow vehicles. LED lighting rounds out the electrical package for safe, visible towing. Finished in black, this Liberty 7x14 utility trailer offers real capacity in a size that's easy to maneuver and store.
