Description

This 2027 Liberty 7 x 20 ft utility trailer is built for buyers who need a wide, heavy-duty deck with true equipment-hauling capability. An 83 in wide deck framed by a tube top rail gives you a stable platform for ATVs, UTVs, landscaping equipment, or general cargo, and the HD spring-assist ramp gate makes loading powered equipment fast and manageable without fighting a heavy gate. Dual 3,500 lb axles support a 7,000 lb GVWR with a 4,950 lb payload capacity, and electric brakes on both axles provide confident stopping power at full load. EZ lube hubs simplify routine maintenance, and a sealed wiring harness resists corrosion and moisture. A tire mount keeps a spare within reach, and the 2 5/16 in adjustable coupler fits a wide range of tow vehicles. LED lighting completes the package for safe, visible towing. Finished in black, this Liberty 7x20 utility trailer is ready to go to work.
