Description

Nexhaul 7X14 15K Gooseneck Dump Trailer w/4ft Walls – Built for Serious Work

The Nexhaul 15K Gooseneck Dump Trailer is designed for professionals who need maximum strength, capacity, and dependable performance on demanding jobsites. Built for contractors, construction crews, and heavy equipment operators, this gooseneck dump trailer delivers exceptional stability and hauling power while maintaining smooth hydraulic dumping control. Rated at a 15,000LB GVWR and supported by tandem 7,000LB axles with electric brakes, this trailer is engineered to move heavy loads with confidence. The gooseneck design improves weight distribution and towing stability, making it ideal for hauling large loads of gravel, debris, demolition material, and equipment.

The powerful dual cylinder hydraulic system provides smooth power up and power down dumping operation. A lockable front toolbox protects the hydraulic pump, wiring, and super duty battery, while the wired remote control allows convenient operation of the dump system from outside the trailer.

Built for durability, the trailer features rugged steel construction and a durable powder coated finish designed to withstand harsh jobsite conditions. Stabilizing outriggers provide additional support when dumping heavy loads or loading equipment. Stake pockets and bed height extension brackets provide additional versatility when hauling bulky materials.

Heavy duty loading ramps allow equipment to be loaded easily, while four in bed D rings provide secure tie down points for cargo. LED lighting, DOT reflective tape, heavy duty safety chains, and a breakaway kit ensure safe towing and highway compliance.

This trailer is built for reliable long term operation. A spare tire mount is included, with optional spare tire available.
