Description

This 2027 Liberty 6' x 10' Dump Trailer is built on a 10,000 lb GVWR platform and finished with a primered, powder-coated frame for lasting corrosion resistance. Dual 5,200 lb axles with electric brakes on both axles provide the stability and control needed for regular towing of heavy material. A single-cylinder KTI hydraulic pump and 4" direct push cylinder operate the dump mechanism, and the combo spread tailgate gives the operator the option of a full dump or a more controlled, gradual release. Eighteen-inch steel sides and a mesh tarp help keep loose material secured while in transit, and pull-out equipment ramps allow the trailer to serve double duty for hauling equipment.

The unit also includes a locking tool box, spare tire mount, 110V battery charger paired with a deep-cycle battery, sealed wiring harness, and LED lighting for visibility in low-light conditions. A 7,000 lb tongue jack, stake pockets, and a 2 5/16" adjustable coupler complete a well-equipped, work-ready trailer.

Key Specs:

- Floor Size: 10 ft (120 in) x 6 ft (72 in)
- GVWR: 9,990 lbs
- Weight: 2,300 lbs
- Payload Capacity: 7,690 lbs
