Price: \$4,395.00

MSRP: \$4,865.00

Sales Price: \$4,195.00

Description

HTC Trailers Steel Tube Design

The primary purpose of an all-tube design in utility trailers is to deliver superior overall structural integrity, particularly in resisting twisting (torsional forces) and flexing during off-road or heavy-load conditions. Tubular steel (e.g., square tubing) encloses the material on all sides, creating a closed section that distributes stress more evenly and prevents deformation—essential for trailers that bounce over uneven surfaces or carry unbalanced loads. This results in a longer lifespan, better safety, and reduced maintenance compared to lighter-duty builds.

FEATURES

- 4 Leaf Double Eye Spring 18-3/8"
- 2" x 4" A Frame Tongue
- 2" x 2" Top Rails
- 7 Way Round Harness
- 14,000# w/ 2-5/16" Ball
- 7600# 5/16" Safety Chains
- Steel Fenders
- Diamond Plate Tread Steps
- Lifetime Warranty LED Lighting
- 15" Radial Tires
- Polyester Black Powder Coat Paint
- Spring Assist Rear Ramp
- Easy Removable Mesh Tailgate
- Tongue Jack w/foot pad
- Recessed Grommet Rubber Mounted Rear Tail Lights

AMP

The Anchor Management Post (AMP) revolutionizes cargo securement in utility trailers by integrating robust, steel hat channel uprights with 4 holes accommodating Rope, Flat Hook, E-track, and Wire Hook loading straps. This design cuts setup time by up to 50%, reduces load-shift risks, and distributes stress evenly for enhanced trailer longevity. As a result, HTC Trailers stands out as one of the most compatible steel options, seamlessly merging traditional and modern securement in a user-friendly framework.
