Description

This 2023 Haulmark trailer offers serious capacity for buyers who need to move heavy equipment or materials on a regular basis. Riding on two axles with a 12,000 lb GVWR, it's rated for a 6,760 lb payload — more than enough for skid steers, compact equipment, or a full load of construction materials. The 28 ft x 8 ft 6 in deck provides ample room for larger loads or multiple pieces of equipment side by side. As a used trailer, it comes at a value price point compared to new, and we recommend an in-person inspection to review its full condition and feature set. Finished in black, this Haulmark trailer is ready for buyers who need real hauling capacity now.
