Sales Price: \$10,299.00

Description

This 2027 PJ Trailers 7' x 14' Dump Trailer offers a 14,000 lb GVWR and a well-rounded feature set suited to both commercial and residential hauling needs. The chassis rides on dual 7,000 lb axles with brakes on both axles, delivering the stability and stopping power required for consistent, heavy-duty use.

A scissor lift hoist paired with a spread gate allows the operator to unload material gradually and with precision, rather than releasing an entire load at once, a valuable feature when grading, filling, or working near structures. The 6" C-channel frame and 24-inch side walls are built to withstand repeated abrasive loads such as gravel, sand, and construction debris.

The trailer also includes a tongue-mounted tool box, D-rings and stake pockets for securing cargo, LED lighting for road safety, and a deep-cycle battery to support electrical components in the field. Key Specs:

- Bed Size: 14 ft (168 in) x 84 in, 24 in side walls
- GVWR: 14,000 lbs
- Weight: 3,660 lbs
- Payload Capacity: 10,340 lbs
- Axles: 7,000 lb, brakes on both
- MSRP: \$10,899 — Sale Price: \$10,299

A 2 5/16" ball coupler completes a setup designed for dependable, long-term service. Priced at \$10,299, reduced from an MSRP of \$10,899, this unit is available now at Rock's Trailer Sales in Grove City. Reach out to our sales team to arrange a viewing or reserve Stock #86088.
