Price: $10,630.00

Description

8'-10' Power Plow
All the Power from Every Angle.
For the pro who demands total control, the SnowEx® POWER PLOW wing plow delivers. This isn't your average plow—it's an advanced system with independent, adjustable wings that give you the versatility to adapt to any job. With the push of a button, you can instantly change from a compact blade for tight spaces to a wide pass for parking lots or a powerful bucket blade for maximum capacity. This is how seasoned contractors clear more snow, faster.
Compatible with Trucks & Tractors.
Variable Straight Blade Modes
Use compact mode for transport or plowing narrow areas, or expand the wings to make extra wide passes.
8100PP model expands from 8? to 10?, while the 8611PP goes from 8½' to 11? wide.

Use compact mode for transport and plowing narrow areas, or expand the wings to make extra wide plowing passes.
Make adjustments at the touch of a button for maximum plowing efficiency.
BUCKET BLADE Scoop Mode
Angle the wings forward to put the POWER PLOW in scoop mode and carry up to 30% more snow with every pass.
Windrowing Position
When angled for windrowing, the leading wing directs more snow into the moldboard to eliminate spill-off.
