Price: \$11,705.00

Description

AVAILABLE NOW! Need a trailer with plenty of deck space for long loads? This 2025 Trail Maxx SD27-40 Deckover Trailer gives you an impressive 40 feet of usable floor length and a full 102-inch deck width.

With a 12,000 lb GVWR and 5,000 lb payload capacity, this trailer is a great option for hauling equipment, materials, vehicles, long loads, and other oversized items where additional deck length makes all the difference.

The 102" wide deck provides plenty of usable space, while the massive 40' length gives you the flexibility to handle loads that simply won't fit on a standard trailer. Finished in black, this Trail Maxx has a clean, professional look while being built for real-world work.

Whether you're a contractor, equipment operator, farmer, rancher, or simply need a trailer with serious deck space, this 40' Trail Maxx is worth a look.
