Description

This 2018 PJ Trailers 20 ft split tilt trailer is built for equipment owners who need a versatile loading deck for a variety of machinery. The split-tilt design combines a tilting rear section with a stationary front deck, giving you flexible loading angles depending on what you're hauling. Rated at a 14,000 lb GVWR with a 10,440 lb payload capacity across two axles, this trailer has the capacity for skid steers, compact tractors, or other mid-size equipment. As a used trailer, it's priced to reflect its age and prior service, and an in-person inspection is recommended to evaluate its current condition. Finished in black, this PJ Trailers unit is ready to go to work for buyers who need proven tilt-trailer capability at a used-trailer price.

Key Specs:

- GVWR: 14,000 lbs
- Payload Capacity: 10,440 lbs
- Curb Weight: 3,560 lbs

- Bed Length: 240 in (20 ft)
- Axles: 2
- Color: Black
- Condition: Used
