Sales Price: \$13,988.00

Description

The XER brings you a more compact but fully outfitted design. Lighter weight and smaller to navigate those tight trailers this is the perfect addition on any vehicle from a Subaru, Jeep, or full size truck. The XER brings a complete ready to camp package from the frame, to the boxes, and on to the kitchen roll-out. Thoughtfully designed with attention to detail. Quality isn't compromised, allowing you to have confidence both on road and off road. COOK WHEREVER, WHEN EVER The focus of the XER is having a full, centrally located kitchen wherever you end up off the road.

Featuring a sink with hot and cold control, a high output stove, useful shelving, a shower point and room for the biggest coolers on the market - all within reach of each other. UNHINDERED CLEARANCE Thanks to clever design and a Timbren suspension, 21" of ground clearance ensure you won't get hung when you are off-road. Independent articulation also means a smoother ride with the XER. The outdoors cabin means getting outdoors and away from it all like true camping should be. But don't let that dissuade you - equip your favorite roof top tent to the XER and enjoy comfort while still waking up to the crisp morning air we all love when camping.

OFF-ROAD STORAGE Get all your gear in the XER so that it's easy for you to hitch up and get where you want to go. With 72,000 cubic inches of storage space (1,180 liters), the only limit is how much gear you own. Take your recovery boards, jacks, shovels, fuel, clothes, and anything else you can think of. SIMPLICITY REDEFINED.
