Description

2027 Sure-Trac 7x20 10K Heavy-Duty Tube Top Utility Trailer

Upgraded HD Contractor Rear Ramp Gate, Adjustable 2-5/16" Coupler, 2" x 2" Tube Top Rail, & Dual 5,200 LB Axles

Engineered for commercial landscapers, hardscapers, equipment operators, and contractors who need maximum deck length and commercial load capacity, the 2027 Sure-Trac 7x20 10K Tube Top Utility Trailer combines a massive 20-foot deck with heavy-duty structural rigidity. Built with a 2" x 2" square steel tube top rail and tube uprights over a heavy steel frame, this unit prevents frame flex under heavy equipment loads.

Custom-upgraded with an Upgraded Heavy-Duty Contractor Rear Ramp Gate built to handle heavy commercial mowers, tractors, and equipment, plus an Upgraded Adjustable 2-5/16" Ball Coupler for precise leveling across different fleet vehicles.

Key Capacities & Dimensions

- GVWR: 9,900 / 10,000 lbs (Commercial 10K Tandem Axle Class)
 - Curb Weight: Approx. 2,750 lbs
 - Net Payload Capacity: Approx. 7,150 lbs
 - Bed Dimensions: 82" Clear Deck Width (Between Fenders) x 240" Deck Length (7' x 20')
 - Overall Footprint: 281" Overall Length / 18" Deck Height / 16"-24" Adjustable Coupler Height
 - Ramp System: Upgraded Heavy-Duty Reinforced Contractor Rear Ramp Gate w/ Heavy Spring Assist
 - Coupler: Upgraded Adjustable 2-5/16" Channel-Mount Ball Coupler

Tie Downs & Storage (4) 1/2" Welded D-Rings, Stake Pockets, & Side Spare Tire Mount
Electrical / Lights Molded 7-Way RV Plug / Full DOT-Compliant Frame-Sealed LED Lighting
Finish High-Gloss Industrial Polymer Powder Coat (Black)

Core Performance & Design Highlights

1. Upgraded Heavy-Duty Contractor Rear Ramp Gate

Designed specifically for daily commercial abuse. Standard utility gates can bend under heavy commercial zero-turns, skid loaders, or compact tractors. This upgraded Contractor Gate features reinforced tubing, heavy-gauge mesh, and integrated heavy internal spring assist to lower back strain during repetitive loading. Includes self-retained gate pins so you never lose hardware on a jobsite.

2. Upgraded Adjustable 2-5/16" Coupler & 7K Drop-Leg Jack

- **Adjustable Coupler:** Multi-position channel-mount coupler allows you to adjust your hitch height instantly, keeping the trailer towing perfectly level behind lifted work trucks, commercial dumps, or fleet vehicles.
- **7K Setback Jack:** Upgraded 7,000 lb. drop-leg jack handles heavy tongue loads effortlessly and is positioned setback on the A-frame so you can drop your tow truck's tailgate completely without striking the jack handle.

3. Dual 5.2K Axles & 20' Deck Length (Over 7,100 LB Payload)

Rides on dual 5,200 lb. braking axles with 8-ply Load Range D radial tires, giving you over 3.5 tons of usable payload. The full 20-foot deck length allows you to haul multiple commercial mowers, long lumber, construction materials, or compact machinery without running out of room.

4. Continuous 2" x 2" Steel Tube Top Rail & Wrapped Tongue

Unlike budget utility trailers built with thin angle-iron top rails that bow outward under strap pressure, Sure-Trac uses a continuous 2" x 2" steel tube top rail. Combined with a 5" wrapped channel tongue extending back to the front axle, this rigid box chassis resists twist and highway bounce under heavy loads.

5. Commercial Cargo Control & Sealed LED Wiring

Equipped with four 1/2" welded D-rings anchored to the frame, outer stake pockets along the sides, and a pre-welded side spare tire carrier. All DOT-compliant LED lights are sealed inside the steel frame structure, protecting wiring from debris, brush, and weather corrosion.

Pricing & Yard Terms

- **Price:** Cash/Check Price Listed
 - **Processing Fees:** A 3% processing fee applies to credit card transactions.
 - **Dealer Fees:** \$0. We charge absolutely zero documentation, prep, or administrative fees.
 - **Documentation:** Temporary license plate/transit registration included with purchase for immediate road use.
