Description

This 2027 Formula Trailers 24' Apex enclosed car hauler brings a blacked-out, finished-interior build to serious car and toy haulers. Black with black-out trim gives it a stealthy look, while .080 poly core sides and a one-piece roof keep the steel frame construction protected from the elements. Inside, a 7' interior height and upper and lower cabinets give you room to stand and store gear, and the rubber coin floor with four D-rings keeps cargo secure and easy to clean up. A rear spoiler with an integrated LED loading light lights up your workspace after dark, and flow-thru vents keep air moving inside while towing. The RV locking side door adds security and convenience, and a 30 amp wiring package with shore cord and 110V wiring keeps you powered on site. On the road, a spread axle setup with torsion suspension and electric brakes on both axles delivers a stable, controlled tow, and the extended tongue and adjustable coupler round out the build. With a 9,900 lb GVWR and 5,500 lbs of payload capacity, this Formula Trailers Apex enclosed car hauler is priced at \$21,999.
