Description

This 2027 Formula Trailers 20 ft Apex enclosed car hauler comes with a finished interior package, giving you a comfortable, presentable trailer for transporting a race car, show car, or other prized vehicle. A 7 ft interior height provides comfortable clearance, and white vinyl walls and ceiling give the interior a clean, finished look that also makes it easy to keep clean. A spring-assist ramp door simplifies loading, and a rear spoiler with integrated LED loading lights improves visibility when loading or unloading after dark. Inside, upper and lower cabinets provide organized storage for tools and gear, and (2) 110V outlets plus a full 110V wiring package and 30 amp service panel mean you can run tools, chargers, or accessories right from the trailer. The trailer is also wired and braced for an air conditioning unit for buyers who want climate control. A steel frame with battle-coat protection and torsion suspension on a spread-axle configuration deliver a stable, controlled tow, and electric brakes on both axles provide confident stopping power. A rubber coin floor and (4) D-rings in the floor keep cargo secure and the interior protected, and the 36 in wide RV-style locking side door adds a convenient walk-in entrance separate from the main ramp door. Finished in black, this Formula Trailers Apex is ready for serious enthusiasts.
