Sales Price: \$13,995.00

Description

This 2026 SHIFTR 8000 hydraulic lowering trailer in Silver takes the hassle out of loading equipment by lowering its 18' steel deck all the way to the ground with the touch of a button, no ramps to unfold or store. The deck sets down at a 4-degree angle for a smooth, low-stress approach when driving on skid steers, mowers, or side-by-sides. Aluminum fenders and an aluminum tool box resist corrosion, and the powder-coated frame is built to hold up outdoors. It's pre-wired for a winch if you ever need to pull a non-running load aboard, and electric brakes on both axles paired with radial tires keep towing steady. A 2 5/16" coupler and 7-pin truck plug round out an easy setup. Backed by an 8,000 lb GVWR and 5,800 lbs of payload capacity, this SHIFTR

8000 is priced at \$13,995.
