Sales Price: \$13,995.00

Description

Loading heavy equipment just got easier with this 2026 SHIFTR 8000 hydraulic lowering trailer in Silver. Instead of ramps or a tilting deck, the entire 18' steel deck lowers hydraulically to a 4-degree loading angle at the push of a button, letting you drive equipment straight on and off without wrestling with ramps. A powder-coated finish and aluminum tool box and fenders protect against rust and road wear, and the trailer comes pre-wired for a winch if you need extra pulling power. Electric brakes on both axles and radial tires keep towing controlled, and the 2 5/16" coupler and 7-pin truck plug make hookup straightforward. With an 8,000 lb GVWR and 5,800 lbs of payload capacity, this SHIFTR 8000 hydraulic lowering trailer is priced at \$13,995.
