Description

2026 H&H Trailers 10K 82X20 Heavy Duty Utility Trailer

Heavy Duty Rail Side Utility Trailer

Built for versatility and strength, the Heavy Duty Rail Side Utility Trailers from H&H Trailers are designed to haul everything from light equipment to heavy loads. With a 10K GVWR and smart, rugged features, these utility trailers deliver unmatched durability and convenience for everyday work or weekend tasks.

Key Benefits

Set Back Jack – Easier Hitch Access

Positioned for balance and clearance, the 7K rated, set back jack makes trailer hookups smoother and more stable.

9,900-Pound GVWR – Serious Load Capacity

With tandem 5200-lb axles, this trailer is engineered to carry heavy-duty equipment or materials without compromise.

Fully Wrapped Tongue – Enhanced Strength and Stability

The wrapped tongue design provides extra structural support, especially when hauling heavier loads.

Heavy Duty Ladder Style Gate – Smooth Loading and Transport

The reinforced ramp gate provides secure, heavy-duty access for loading equipment. Plus, the folds-flat design reduces wind drag when not in use.

3" Tube Top Rail – Sturdy Construction

Built with a heavy-duty 3"x2" tube top rail and reinforced uprights, this utility trailer offers outstanding rigidity, strength, and long-term durability. Its robust construction ensures stable, reliable hauling of heavy equipment, tools, and recreational gear across any terrain.

Sealed Wiring Harness – Long-Lasting Reliability

Protected from moisture and corrosion, the sealed wiring harness ensures consistent lighting and fewer maintenance issues.
