Description

Heavy Duty Dump Trailer

Engineered for high-performance hauling, CAM Superline® Heavy Duty Dump Trailers combine robust construction with advanced hydraulic lift options. Whether you choose the scissor or telescopic hoist, these dump trailers deliver superior strength, control, and versatility for heavy-duty jobs.

Key Benefits

Triple-Acting Tailgate with Chains – Flexible Unloading Control

Rear doors convert to spreader gate, barn doors, or pickup style tailgate to suit your load and dumping needs.Slipper Spring Suspension – Stable Under Heavy Loads

Enhances ride quality and weight distribution for rugged job site use.Storage Tray Under Dump Bed – Keep Gear Secure and Accessible

Conveniently stores tools, chains, and tie-downs beneath the dump bed.Integrated Tarp Shroud and Tarp Kit – Secure Your Load

Secure your load in transit. Built-in tarp system with mesh cover prevents material from blowing out of the trailer.

Why Choose a New Heavy Duty Dump Trailer?

Overview

The CAM Superline® Heavy Duty Dump Trailer series is designed to tackle the most demanding tasks on job sites, farms, or in construction zones. Built with a 10-gauge smooth steel floor, 24-inch tall sides, and either a scissor or telescopic hoist, these dump trailers provide rugged performance and long-term reliability. Both hoist types are power-up, gravity-down hydraulic systems operated by a remote with a 20-foot cord, ensuring easy, controlled dumping.Available Models

Available in 12’, 14’, and 16’ lengths with weight ratings ranging from 12K to 16K GVWR, these trailers support impressive payloads up to 11,470 lbs. Each model includes a bolt-on 12K drop leg jack, adjustable 2-5/16” coupler, and tread plate fenders. Choose from models equipped with either greased 6K/7K axles or 8K oil bath axles, and tires ranging from 235/80R16 to 215/75R 17.5 for superior durability on the road and on-site.Standard Features

Every heavy-duty dump trailer includes a triple-acting tailgate with chains, slipper spring suspension, LED rubber-mounted lighting, and a sealed wiring harness. The trailer frame uses a 6”x2” tube design with 3” structural steel channel crossmembers. Each trailer includes stake pockets and a rub rail, a spare tire mount, and a steel lockable pump box. For added convenience and compliance, a Zip® Breakaway system, 7-way plug, 110V battery charger, deep-cycle battery, and a three-year warranty are included.Options

Customize your dump trailer with premium upgrades like a 7-gauge flooring upgrade for extra durability, hydraulic jack for quicker setup, and mud flaps to minimize debris. Add a pallet fork carrier to streamline equipment transport or choose aluminum wheels for reduced weight and rust resistance. A wireless remote system is also available for even greater control and convenience during dump operations.
