Price: $6,599.00

Description

The Equipment Trailer is designed for versatility and durability across a wide range of jobs and applications. Built with a rugged C-Channel frame and cross-members, this trailer is engineered to withstand the toughest work environments, providing the strength and reliability you need to haul your equipment with confidence.

Easy Loading & Unloading

One of the key features of the Equipment Trailer is its 2-foot beavertail, which provides an easier and smoother transition for loading and unloading your equipment. Paired with the spring-assist channel ramps, this trailer makes handling even heavy machinery a more manageable task. The spring-assist ramps reduce the effort needed to raise and lower them, saving you time and energy during the workday.

Enhanced Stability

In addition, the ramps are equipped with adjustable support legs, allowing you to load equipment on uneven or soft ground without worrying about stability. This ensures safer loading conditions in various environments, whether you're at the job site, in the field, or on a slope.

Versatile Performance

Designed for versatility, the Equipment Trailer can handle a wide range of applications, from transporting compact construction equipment to hauling heavy-duty machinery for agricultural or landscaping projects. Its robust construction and thoughtful design features make it ideal for professionals who need a dependable trailer that can adapt to different tasks.

Long-Lasting Reliability

Whether you're moving tractors, skid steers, or other essential equipment, the Equipment Trailer is built to provide years of reliable service. It combines the traditional functionality of an equipment trailer with modern enhancements for ease of use, safety, and durability. Whatever the job, the Equipment Trailer is ready to help you get it done efficiently and effectively.
