Looking for a 7x14 enclosed cargo trailer with the space and versatility to haul equipment, tools, motorcycles, landscaping equipment, business inventory, or recreational gear? This new 2026 Titanium 7x14 tandem axle enclosed cargo trailer is built for dependable everyday use with a 7,000 lb GVWR, tandem 3,500 lb axles, electric brakes, a rear ramp door, side entry door, and durable enclosed construction.

This 7x14 cargo trailer also features the Stealth Exterior Trim Blackout Package for a clean, modern appearance and two rows of recessed floor E-Track, providing multiple options for securing and organizing your cargo.

Built for Work, Business & Everyday Hauling

The 7x14 enclosed trailer provides a practical combination of cargo space, towing versatility, and enclosed protection. It's an excellent option for contractors, landscapers, tradesmen, mobile businesses, powersports enthusiasts, and anyone who needs additional enclosed hauling space.

The 7,000 lb GVWR tandem axle configuration provides increased capacity compared with many single-axle cargo trailers. The 3,500 lb dropped leaf spring axles feature electric brakes and E-Z Lube hubs for dependable towing and convenient maintenance.

The rear ramp door makes loading wheeled equipment, motorcycles, carts, lawn equipment, and other cargo easier. The 36" side door with flush lock provides convenient personnel access without opening the rear ramp.

Smart Features for Cargo Security & Convenience

The included two rows of recessed floor E-Track provide flexible tie-down points for securing equipment and cargo during transportation. The enclosed construction helps protect your tools, equipment, inventory, and personal belongings from weather and road debris.

Additional features include a 3/4" plywood floor, 3/8" plywood side walls, .080 PolyCore exterior, galvalume roof, 24" front stone guard, LED tail lights, 12V interior dome light, aluminum exterior fenders, and V-nose construction with ATP trim.

Why Choose a 7x14 Enclosed Cargo Trailer?

A 7x14 enclosed trailer is a versatile choice for customers who need more room than a smaller cargo trailer without moving into a much larger trailer. The tandem axle design, 7,000 lb GVWR, rear ramp door, side entry door, and E-Track make this configuration adaptable for a wide range of work and recreational applications.

Whether you're hauling construction equipment, landscaping tools, motorcycles, ATVs, lawn equipment, business inventory, or general cargo, the Titanium 7x14 provides a flexible enclosed trailer platform designed to handle a variety of hauling needs.

This new Titanium 7x14 tandem axle enclosed cargo trailer is available from Southern Trailer Depot in Douglas, Georgia.

If you're comparing enclosed cargo trailers, we'll help you match the trailer size, GVWR, axle configuration, and features to what you're actually hauling—so you can choose the trailer that fits your needs without buying more trailer than necessary.
