Description

STWB Series Equipment Trailer

The Midsota STWB Series flatbed trailer is expertly engineered for hauling heavy equipment with confidence. Featuring drive-over fenders, a 4' beavertail, and flip-over wedge ramps, this durable equipment trailer ensures safe loading and reliable performance. Built with rugged materials and available in lengths up to 32', the STWB trailer is a trusted solution designed to meet the toughest demands of construction, landscaping, and industrial transport.

You need a trailer that can handle the demands of your work and adventures. Midsota trailers are built for long-term performance, giving you the confidence to haul whatever, wherever.

Key Benefits

- Two Full-Width Flip-Over Wedge Ramps
- Simplifies loading, providing a secure and stable approach for heavy machinery and vehicles.
- 4' Beavertail

Offers a gentle 14.5-degree load angle, reducing the risk of damage during equipment loading.

Drive-Over Fenders

Maximizes the 102" deck space, allowing wider machinery to be loaded safely and easily.

Treated Pine Deck

Delivers durability and traction, ensuring cargo stability and extending the trailer's lifespan.

Why Choose a STWB Series Equipment Trailer?

Overview

Built to tackle demanding jobs, the Midsota STWB Series flatbed trailer is ideal for transporting heavy-duty equipment, vehicles, and materials safely and efficiently. Combining rugged construction with user-friendly features like drive-over fenders and a 4-foot beavertail, the STWB Series ensures hassle-free loading and optimal performance for contractors, landscapers, and industrial users.

Available Models

The STWB Series flatbed trailer is available in seven versatile lengths—20', 22', 24', 26', 28', 30', and 32'—all rated with a robust 17,600-pound GVWR. This extensive range makes it easy to find the ideal trailer length to suit your specific hauling needs, ensuring you have the capacity and flexibility required for any job.

Standard Features

Each STWB flatbed trailer comes standard with self-adjusting electric 2-inch brakes and rugged 17.5-inch H-range, 16-ply tires (215/75R17.5) for safe stopping power and dependable towing.

With a low 27.5-inch bed height and rub rail with stake pockets, loading and securing equipment becomes more manageable and secure. Featuring LED lighting, a durable industrial-grade polymer finish, and a cold-weather-rated (-85°) 7-way plug, the STWB Series is ready to perform reliably in even the harshest conditions. Additional features include a heavy-duty 12K bolt-on spring return jack, a 2-5/16" adjustable coupler for versatile hitching, and no exposed wiring to ensure safety and durability. Every STWB trailer is backed by Midsota's trusted 5-year frame warranty.

Options

Customize your STWB flatbed trailer with premium upgrades such as 10K torsion axles for enhanced suspension performance and ride quality or choose aluminum wheels to reduce trailer weight and elevate your trailer's appearance. A hydraulic tongue jack offers effortless hitching and unhitching, while the hydraulic beavertail option—available on trailers 26 feet or longer—simplifies loading of low-clearance equipment. Adding a steel toolbox increases secure storage capacity for essential tools and accessories, and equipping your trailer with a powerful winch ensures reliable, controlled loading every time.
