Description

2027 Liberty 16K 16' Heavy-Duty Dump Trailer — 5-Stage Telescopic Hoist

HEAVY-DUTY 16K DUMP TRAILER | 16' BED | 5-STAGE TELESCOPIC DUMP SYSTEM

Looking for a heavy-duty dump trailer built for serious work? Check out this 2027 Liberty 16K 16' Dump Trailer, equipped with a powerful 5-stage telescopic hydraulic dump system.

Whether you're hauling dirt, gravel, rock, demolition debris, construction materials, landscaping supplies, firewood or equipment, this Liberty dump trailer is designed for contractors, farmers, ranchers, landscapers and property owners who need more capacity and durability than a light-duty dump trailer can provide.

5-STAGE TELESCOPIC DUMP SYSTEM

One of the standout features of this Liberty is the 5-stage telescopic hydraulic cylinder.

The telescopic hoist provides strong lifting power from the front of the dump body and delivers a steep, controlled dumping angle to help unload heavy and stubborn material.

For buyers comparing telescopic dump trailers vs. scissor-hoist dump trailers, the heavy-duty telescopic system is one of the features that makes this Liberty an excellent choice for demanding commercial and agricultural use.

16' HEAVY-DUTY DUMP BODY

The 16-foot dump bed provides substantially more usable space than shorter dump trailers, making it a versatile choice for both bulk material and equipment hauling.

Use it for:

- Dirt, Sand & Gravel
- Rock & Landscaping Material
- Construction & Demolition Debris
- Roofing Tear-Off
- Scrap & Cleanup
- Firewood
- Farm & Ranch Material
- Skid Steers & Compact Equipment
- Commercial & Contractor Applications

The combination of a 16K GVWR and 16' dump body gives you a trailer that can work during the week and still handle equipment and property projects when needed.

BUILT FOR CONTRACTORS, FARMERS & RANCHERS

The 2027 Liberty 16K Heavy-Duty Dump Trailer is built for buyers who expect their trailer to work. Instead of buying a smaller dump trailer and wishing you had more room, the 16' body gives you the versatility to tackle larger jobs while the 16K heavy-duty chassis and telescopic dumping system are designed for demanding loads.
