Description

Nordtex
Deck-over power tilt trailer
Dimensions: 20 feet long with a full deck-over wide profile.
Weight Ratings: 10,000 lbs Gross Vehicle Weight Rating (GVWR) with an incredibly light empty trailer weight of roughly 2,000 to 2,700 lbs, maximizing your legal payload capacity.
Running Gear: Tandem 5,000 lb axles equipped with electric brakes on all wheels.
Power Tilt System: Powered by an onboard electric-over-hydraulic pump system providing full power-up and power-down operations.
Battery & Charging: Equipped with a deep-cycle battery encased in a lockable tongue storage box alongside an integrated 8-amp smart battery charger and tester.
Controls: Operated via a tethered cord or an included wireless remote control, allowing you to actuate the tilt bed safely from inside a tow vehicle or while guiding equipment.
Lighting & Electrical: In-house custom braided wiring harnesses enclosed in protective sleeving mated directly to an all-LED marine-grade lighting package.
Tie-Downs & Perimeter: Standard stake pockets and full-length aluminum rub rails line the outer perimeter of the deck for versatile load securing.
Decking: Treated all-weather wood deck boards set over tight crossmember spacing to support high-point impact loads from heavy machinery.
