Price: $799.00

Description

Overview

SaltDogg Walk Behind Drop Spreader offers contractors, facilities managers, and property owners a high capacity walk behind spreader for use with bagged salt and ice melt. Its low-to-the-ground, drop spread design keeps application precise, making it ideal for areas near sensitive foliage. The wide 44 in. profile can cover a whole path in one pass.

The manual drop spreader has a 2.5 cubic foot poly hopper that can accommodate 200 lb of bagged salt or ice melt. The stainless steel agitator and trough with nylon bushings keep materials moving, and help to break up any clumps in the de-icing material. The spreader features a durable stainless steel frame and discharge, as well as 13 in. pneumatic tires for a reliable ride.
$70 Additional for Assembly
