Power Tilt Car Hauler Trailer

The CAM Superline® Power Tilt Car Hauler Trailer provides a safer, easier way to load your car by replacing steep, clunky ramps with precision hydraulics. This 14,000 lb. GVWR car hauler trailer features a push-button system that lowers the entire deck to the ground, creating a controlled transition for low-clearance vehicles. It is the ultimate engineering solution for drivers who want to protect their investment and simplify their haul.

Three Year Warranty

Push-Button Hydraulics

Offers a safer, easier way to load your car by using a 12V system to tilt the deck smoothly, eliminating the risk and heavy lifting of manual ramps.

Full-Length Rub Rail

Secure specialty vehicles or light equipment with versatile, heavy-duty tie-down points across the entire frame.

Bolt-In Lockable Toolbox

Keep your straps, winches, and gear organized and protected from the elements with this standard toolbox.

Integrated Bulkhead

Load confidently with this layer of structural protection and a forward stop-point for your vehicle.

4-Amp On-Board Charger

Your tilt trailer is always powered and ready for a predictable, stress-free loading experience.

Removable Fenders

Step out of your vehicle with ease with removable fenders that allow for extra door clearance after loading.

Overview

The CAM Superline Power Tilt Car Hauler Trailer is engineered for the owner who wants to eliminate the stress of loading. As a premium car hauler trailer, it removes the guesswork of steep angles and unaligned ramps. By combining lightweight aluminum construction with a high-capacity tilt bed trailer design, this model ensures that the most critical part of your journey—the load—is also the easiest.

Frame and Construction

This car hauler trailer is built on a high-strength aluminum frame designed for maximum durability and reduced towing weight. The 12V hydraulic pump is housed in a protected enclosure, while the fully sealed wiring harness and LED lighting system ensure long-term reliability on the road.

Exterior Features

The low-profile design is enhanced by professional-grade securement options, including four 1/2" D-rings and a standard rub rail. The included bulkhead and bolt-in toolbox provide a clean, organized look that reflects the premium nature of the CAM Superline brand.

Loading Features

Loading is designed to be smooth and predictable. With the push of a button, the deck tilts to meet the ground, protecting front splitters and underbody components from damage. The smooth-action hydraulics provide total control, making this tilt trailer the premier choice for hauling performance cars and specialty vehicles with complete peace of mind.
