\$8050!!! IS CASH, CHECK OR FINANCING PRICE!!!

GVW: 14000#

Unladen: 4260#

Payload: 9740#

MODEL: UTT8224-140

KEY BENEFITS

14,000 lb GVWR

Provides the structural strength to carry up to 10,000 lb of equipment, offering equipment trailer capability in a utility trailer format.

Equipment Grade Ramps

Significantly beefier than standard utility trailer ramps, these mesh-covered units are built for compact equipment. The reduced gap between the ramp and trailer deck creates a smoother transition for smaller-wheeled gear, such as mowers.

Bolt-In Lockable Toolbox

Keep tools and gear secure and out of sight with a standard lockable toolbox included with every unit.

Low Deck Height

Features a reverse knife-edge ramp and reduced gap deck to make loading equipment with small wheels safer and smoother.

Heavy-Duty Securement

Includes six 1/2" D-rings, six heavy-duty stake pockets, and a standard rub rail to safely secure equipment and cargo of all shapes and sizes.

12K Heavy-Duty Jack

Set back to protect your truck's tailgate, this jack allows you to easily unhook the trailer even when fully loaded.

SPECS:

Frame: 6" x 4" x 5/16" Steel Angle

Crossmembers: 3" Steel Channel, 16" On-Center

Tongue: 6" Steel Channel, Fully Wrapped

Coupler: Adjustable Ball Coupler or Pintle Ring

Between Fenders: 81.25"
Deck Height: 21"
Coupler Height: 19" - 27"
Ramps: 5' Tall Spring Assist Stand-Up with Adjustable Support Legs
Safety Chains
Rub Rail
Stake Pockets
D-Rings
3 Year Warranty

Why Choose a New 14K Tube Top Utility Trailer?

Overview

The CAM Superline Tube Top Utility – 14K is built for professionals who need maximum versatility from their utility trailers. As a true hybrid, it allows you to drop off mowers at one site and pick up an excavator at the next without wasting time running back to the shop. Designed to be the only trailer you need, it helps reduce equipment costs and improve efficiency by doing the work of two trailers.

Frame and Construction

Built for the long haul, this heavy-duty utility trailer features a 6" x 4" 5/16" angle frame and a 6" channel tongue. A 55" tongue and slipper spring suspension provide a smoother ride and easier maneuverability on tight jobsites. To ensure long-term durability, the trailer is equipped with a fully sealed wire harness that resists moisture and debris for reliable performance in tough jobsite conditions.

Exterior Features

The flatbed-style layout is designed for maximum securement flexibility. With standard rub rails, six D-rings, and six heavy-duty stake pockets, you can quickly tie down equipment of any shape. Unlike many other brands, the CAM Superline includes a bolt-in lockable toolbox as a standard feature, helping keep tools organized and protected on the job.

Interior and Loading Features

Loading heavy machinery is safe and stable thanks to adjustable support legs and a low loading angle. Heavy-duty mesh-covered ramps are built for daily use, featuring bushings in the hinges for smooth pivoting and reduced maintenance over time. The reduced gap between the deck and the ramp ensures a smooth transition for equipment with low ground clearance or small wheels.
