Stallion horse trailers have been carefully crafted with the modern equestrian enthusiast in mind. These trailers are skillfully designed to tackle the challenges of interstate travel, while ensuring your valuable cargo experiences a comfortable journey. The Stallion horse trailer features include .080 PolyCor exterior, aluminum-lined interior, and all steel framing.

Stepping inside, your horses will appreciate the state-of-the-art extruded rubber flooring system. Unlike wood, this extruded rubber flooring will not rot or decay, and it comes with a 20-year warranty from the manufacturer. The cushioned surface of the flooring ensures a comfortable ride for your horse. Cleaning the floor is as simple as using a water hose.

The Stall Area

Moving around the stall area, you'll appreciate the 4' high stall liner and padded divider gates, providing safety and comfort. Slant load models feature drop down feed windows that come with separate bar guards. To minimize glare for your horse, all windows are tinted. Adequate ventilation is crucial, which is why the Stallion horse trailer is specifically designed to maximize airflow. Drop down or sliding windows allow for maximum ventilation. Each horse stall is equipped with two-way roof vents.

The Stallion horse trailer truly meets the functional needs of today's horse trailer market, providing safe and comfortable transportation. We are confident that you will find the Stallion horse trailer to be an excellent investment and a remarkable choice!
