Description

The Diamond C LPT is a heavy-duty, low-profile telescopic dump trailer built for commercial construction, equipment hauling, and extreme job-site loads.

Key Features & Specs

• Lifting Mechanism: Uses a heavy-duty multi-stage telescopic cylinder (instead of a traditional scissor hoist) mounted forward to provide maximum dumping leverage and smooth, reliable lifting power.

• Frame & Build: Built on a strong I-beam frame featuring Engineered Beam Technology on higher GVWR packages, plus a central-seam overlapped floor design to prevent moisture buildup and corrosion.

• Capacity & GVWR: Gross Vehicle Weight Ratings (GVWR) range generally from 15,500 lbs up to 24,000 lbs (with popular 14K–15K configurations offering payloads around 9,900–10,000 lbs).

• Available Sizes: Commonly offered in lengths like 12', 14', and 16' with an 82" bed width.

• Notable Options: Available with the Pace Setter Edition (adding features like board brackets, 3/16" diamond plate fenders, drop-leg stabilizers, and solar charging), 3-way rear gates, slide-in ramps, and the ShurLink electric tarp or hydraulic jack systems.
