Sales Price: $29,715.00

Description

The Multi-Purpose, Two-In-One Drop-Deck & Dump TrailerThe widely popular 3D (Drop-Deck & Dump) model is the world's only trailer of its kind – offering the dual-purpose flexibility of being both a drop-deck and dump trailer all in one heavy-duty vehicle. With a full 173? internal deck length and 74? deck width combined with a 12,000 lb equipment capacity (12,000 dump capacity), you can fit most any piece of equipment to handle just about every job, large or small. The Airtow 3D takes up half the yard space with none of the maintenance issues of two, other equipment and dump trailer combinations.
This Air-Tow model features its unique, exclusive Floating Torsional Rubber suspension system with floating axles mounted in a heavy duty roller bearings. The suspension has a progressive spring rate, the further it is compressed the stiffer it becomes. It is gradually stiffened according to the load being applied by progressively increasing in proportion to the load. The rubber suspension can withstand severe shock loads at maximum capacity without bottoming out which greatly reduces forces transmitted to the trailer frame and cargo.

Features

- Exterior Features
  - D-Ring Installed
  - Steel Floor
- Jack & Coupler Features
  - 2 5/16" Coupler
