SaltDogg® SHPE Electric Poly Hopper Spreader with Auger

Fits everything from UTVs to full-size trucks with a 6-1/2 ft+ bed.

Patented double-wall poly hopper is available in black finish. Won't rust or dent.

12V DC-powered electric drive with independent auger and spinner motors.

Handles bulk salt or a 50/50 sand/salt mix.

In-cab control of independent auger and spinner speeds, with vibrator control.

14 in. poly spinner broadcasts material up to 30 ft. and can be easily removed for cleaning and storage. Includes high flow standard or extended length chute.

Stainless steel auger, open trough and spinner shield for convenience and durability.

Auger auto reverse functionality helps clear jammed material.

Vibrator, top screen, tarp, tie downs and remote auger bearing grease kit included.

Buyers Products SaltDogg SHPE Electric Poly Hopper Spreader with Auger gives contractors and facility managers a low maintenance hopper spreader ready for residential or commercial use. Electric power means quieter operation with no need for refueling or engine servicing. The durable poly hopper features a patented double-wall construction. It fits vehicles from UTV's to full size pickup trucks and uses a bulk salt or a 50/50 salt/sand mix. The spreader features a 2-1/2 in. stainless steel auger and trough and a 200 lb capacity vibrator to keep material flowing. The auger will automatically reverse if it gets jammed, helping to clear the clog and restore flow. It's powered by an independent 1/2 HP, 12V gear motor. A 14 in. polymer spinner, powered by an independent 1/4 HP, 12V gear motor, can cast a 5-30 ft radius. The vibrator and auger/spinner speeds are controlled by a closed-loop, in-cab controller. The SHPE also comes outfitted with a top screen, tie downs, fitted tarp, and remote auger bearing grease kit. Standard Length Chute comes standard on all SaltDogg SHPE Spreaders.
