Description

Component
Description
Model / Body System
NXG HDX Integrated Service Body / Deck System
Available Lengths
8'6", 9'4", 11'4" standard configurations
Headache Rack (XRack)
Integrated XRack headache rack with welded boxed steel construction and clean radius corners for strength and durability
Work Lights
Four high-density LED work lights (two integrated into XRack, two rear-mounted) for maximum job-

site visibility
Deck (XDeck)
Recessed 1/8" steel treadplate deck designed to maximize cargo space and reduce exposed wear surfaces
Frame Rails
4" structural channel steel frame rails for long-term durability
Crossmembers
3" structural channel crossmembers engineered for maximum deck support and load distribution
Rear Skirt
One-piece formed steel rear skirt with tapered corners for improved turning clearance
Gooseneck Hitch (XHitch)
30,000 lb rated integrated gooseneck hitch with built-in 7-way electrical plug
Bumper Pull Hitch (XHitch)
24,500 lb rated 2.5" receiver hitch with integrated 7-way and 4-way electrical connections
Airline Track System
Integrated airline track tie-down system positioned for flexible cargo securement and compatibility with fuel tanks or storage boxes
Fuel Fill
Angled rear-facing fill neck designed for cab chassis applications to reduce splashback and improve fueling efficiency
12V Trailer Wiring
Dual setup: 7-way plug in gooseneck box plus rear 7-way / 4-way combo plug for maximum connectivity
Marker Lighting
DOT-approved LED bullet marker lights for road-ready visibility
Toolboxes
Seven total toolboxes including underbody storage compartments for maximum organization
Weather Sealing
NXG channel-lock grooved weatherstripping for superior sealing and moisture protection
Toolbox Latches
Black T-handle compression latches for secure and reliable closure
Fenders
Heavy-duty steel fender construction for durability in harsh conditions
Side Steps
Integrated steps located in front of and behind fenders plus a large rear access step for ease of entry
