**Description**

Component
Description
Finish System
Heavy-duty wet coat finish using low-VOC acrylic polyurethane paint for complete coverage, durability, and long-lasting gloss
Deck Coating
Non-slip black lava deck coating for enhanced safety, corrosion resistance, and improved surface durability
Door Support System
Gas-cylinder style door holders (gas shocks) for smooth operation and secure open positioning
Rear Lighting
LED rear lighting system with wiring harness; brighter, lower power consumption, and higher reliability than incandescent systems
Compartment Tops
Treadbrite aluminum compartment tops providing strong, corrosion-resistant support for tool storage areas
Body Construction
Bolted modular body design for easier repair, serviceability, and configuration flexibility
Mounting System

Universal bolt-on body and bumper mounting kit for simplified installation and compatibility
Weather Sealing
Automotive D-bulb weather stripping for superior moisture resistance and long-term sealing performance
Door Design
Multi-panel reinforced doors engineered to reduce flexing, sagging, and wear over time
Body Structure
(A60) 16-gauge steel body with (G60) galvanneal welded side packs for maximum strength and corrosion resistance
Deck
12-gauge galvanneal steel deck designed to prevent flexing, sagging, and cracking under heavy use
Fenders
Polished aluminum fenders offering corrosion resistance and enhanced appearance
Rear Gate
Heavy-duty rear tailgate designed for secure material containment and long service life
Bumper
Universal bolt-on crash zone bumper engineered to reduce impact damage and improve safety
Latches
T-handle twist compression latches for secure closure and moisture-resistant storage compartments
Interior Finish
Powder-coated toolbox interiors to prevent rust and corrosion from tool movement
Warranty
4-year / 48,000-mile warranty plus 6-year no rust-through guarantee on steel components
