Description

Component
Description
Model / Body System
NXG HDX Integrated Service Body / Deck System
Available Lengths
8'6", 9'4", 11'4" standard configurations
XCoat Finish System
NXG's proprietary multi-stage cleaning and powder coating system delivering unmatched corrosion resistance and a durable, professional finish built for harsh environments
XRack System
Fully integrated headache rack built into the body (not bolted on), constructed with 3" × 4" steel tubing, mandrel bends, and built-in XLights with strobe capability for job-site safety
XRack Worklights
Two high-density rack-mounted LED work lights for maximum visibility and safe nighttime operation
XDeck
1/8" recessed treadplate deck with XCoat finish, eliminating exposed edges for improved corrosion resistance and long-term durability
XHitch System (Gooseneck)
Frame-integrated 30,000 lb gooseneck hitch system with upright safety chain keepers, standard 7-way plug, and emergency breakaway loop for maximum towing safety
XHitch System (Receiver)
Integrated 24,500 lb receiver hitch built directly into the frame for heavy-duty towing performance

XSteps
Integrated NXG XSteps located in front of and behind fenders, plus industry-leading large rear step with non-slip covers for safe bed access
Trailer Light Plugs
Rear-mounted automotive-grade 7-way/4-way 12-volt plug plus dedicated gooseneck 7-way plug for reliable trailer connectivity
Fuel Fill
Angled rear-facing fill neck designed for cab chassis applications to reduce splashback and improve fueling ease
Toolboxes
Two tall vertical front toolboxes with adjustable shelves plus two integrated rear toolboxes, all powder-coated with T-handle compression latches
Frame & Crossmembers
Optional 4" precision-cut structural steel frame rails paired with 3" roll-formed steel crossmembers for maximum strength and towing capacity
Side Rails
3/8" × 2" formed steel rub rails with integrated stake pockets and tie-down compatibility
Marker Lighting
DOT-approved LED bullet marker lights for road-ready visibility and safety
Fenders
Heavy-duty steel radius fenders for long-lasting durability in demanding environments
