Description

Component
Description
Cab Protector
Bolt-on cab protector with plasma-cut rearview window grille designed for added cab protection during loading and transport while improving rear visibility
Frame Sills & Crossmembers
6" structural steel long sills with 3" structural steel crossmembers providing a heavy-duty foundation for maximum load capacity and durability
Sides
18" stationary or fold-down sides with integrated wood pockets for flexible loading and material handling options
Floor
Heavy-duty 10-gauge steel dump floor engineered for maximum strength and long-term durability under heavy loads
Side Walls
18" 10-gauge reinforced steel side walls with tube top rails and formed bottom rails for enhanced rigidity and strength
Rear Gate
2-point 24" tall heavy-duty rear gate designed for secure material containment and efficient dumping or spreading
Lighting
DOT-approved LED lighting system providing high visibility, low maintenance, and improved safety

in all operating conditions
