Description

Component
Description
Model / Body System
NXG HDX Integrated Service Body / Deck System
Available Lengths
84", 8'6", 9'4", 11'4" standard configurations
XCoat Finish System
Proprietary multi-stage powder coating system delivering industry-leading corrosion resistance and a durable, professional finish for harsh environments
XDeck
Fully recessed 1/8" steel treadplate deck maximizing cargo space while eliminating exposed edges

to reduce wear and corrosion

XRack System

Fully integrated headache rack built into the body (not bolt-on), constructed with 3" × 4" steel tubing and mandrel bends for maximum strength and protection

XLights

Integrated automotive-grade lighting system including stop, tail, turn, backup lights, and built-in amber strobe for enhanced visibility and job-site safety

XHitch System

Frame-integrated towing system rated at 30,000 lb gooseneck and 24,500 lb receiver, featuring safety chain keepers, pre-wiring, and emergency breakaway loop

Frame Rails

4" precision-cut structural channel steel runners for maximum strength and improved corrosion resistance

Crossmembers

3" roll-formed steel crossmembers for superior deck support and load capacity

Side Rails

3/8" × 2" formed steel rub rails with integrated stake pockets for secure tie-down options

Fuel Fill

Angled rear-facing fill neck (cab chassis configuration) designed to reduce splashback and improve fueling ease

Marker Lighting

DOT-approved LED bullet marker lights for reliable, road-ready visibility

Trailer Light Plug

Automotive-grade 7-way / 4-way 12-volt electrical hookup for dependable trailer connections
