Estimated capacityGVWR: Approximately 3,500 lbs
Empty weight: Roughly 1,200–1,500 lbs, depending on the manufacturer and options.
Estimated payload: About 2,000–2,300 lbs
The 12-foot trailer is well suited for lawn mowers, ATVs, golf carts, small UTVs, motorcycles, and light building materials. If you plan to haul a heavier UTV, compact tractor, or multiple pieces of equipment regularly, the 16-foot tandem trailer is the more capable choice due to its much higher payload capacity and electric brakes.
