Price: $9,767.00

Description

American-Made Toughness
The Maverick HD Zero-Turn Mower is proudly built in the USA at Bad Boy Mowers' Batesville, Arkansas headquarters. It features a heavy-gauge, all-steel, all-welded and fabricated 2? x 2? frame rail. The solid steel, 7-gauge formed and welded deck has reinforced 3/8? sides, a deeper 5.5” shell, and an improved baffling system for greater grass-lifting power and a cleaner cut. Patented Dual Deck Support Isolators help minimize damage from side impacts. Its lower-profile frame improves stability on inclines and uneven turf, and the Maverick HD is ready for commercial duty.

Upgraded Power and Durability
The Hydro-Gear ZT-3400 Integrated High-Efficiency Drive System features commercial-rated hydraulics and a heavier 1.25? shaft. Patented independent, suspended cast front I-Beam rails support 3/8? steel front forks. The Maverick HD also features pro-class, heavy-duty spindles and blade-drive components shared with larger R-Series models. It is built to mow all day while delivering pro-class cuts.

Comfort and Performance
Premium standard features include an adjustable suspension seat, adjustable steering arms, an easy-reach control center, a striping kit, and an all-new 13-gallon fuel tank. Reaper® rear tires provide traction and stability, while no-flat front tires help eliminate flat-tire concerns. The patented EZ-Ride® System and independent front suspension provide a smooth ride on any terrain.

Commercial Power in a Compact Package
The Maverick HD is Bad Boy's entry-level pro commercial-grade zero-turn mower. Choose from 60”, 54”, 48”, or 42” deck options, and Kawasaki or Vanguard engine models. The 42” model is designed for gate access and smaller spaces.

- Engine Options: Kawasaki & Vanguard
- Available Deck Sizes: 42", 48", 54" & 60"
- Dual Hydro-Gear® 3400 Series Commercial-Grade Integrated Drive Systems
- Patented Independent Front Suspension
