Price: $8,213.00

Description

Patented Front Independent Suspension
The Bad Boy Maverick Zero-Turn Mower is equipped with our patented front and rear EZ-Ride® Suspension system. This historic innovation mounts powerful high-performance Hydro-Gear 3200 integrated drives on rubber isolators, allowing the drives to independently absorb bumps and glide effortlessly over uneven terrain. Isolators on the hinged front wheel arms work independently to provide suspension from the front, giving you the smoothest ride around. It's the same system Bad Boy uses on our R-Series Commercial Mowers, with the same commercial-grade strength.

As Tough As They Come

The Maverick Zero-Turn Lawn Mower is the top of the line when it comes to residential zero-turn mowers. Built and outfitted commercial-grade tough, but priced perfect for the demanding landowner, the Maverick features a strong 2? x 2? all steel rail frame for its backbone. Industry-leading 3/8? steel front forks are a Bad Boy construction hallmark as is the solid steel, all-welded and formed deck, the heaviest in its class. Formed from tough 7-gauge steel with reinforced edges, we've deepened the shell

and improved the baffling system to maximize greater grass lift for a cleaner cut. With all this, plus an impossibly affordable price point, you could say the Maverick is in a class by itself. The first of its kind and still kicking. The Maverick Residential Zero Turn Lawn Mower features tough build construction, popular power options, and offers better comfort and cut as far as the eye can see, all at a breakthrough price other manufacturers thought was impossible. Floorboard flips up for easy cleaning and accessibility. Another smooth move in Bad Boy innovation first.

A Smooth, Comfortable Ride

One ride on a Maverick, and you see why Bad Boy mowers are renowned for their smooth ride and all-day comfort. Your saddle is all-new, premium seat, with electronic controls right at your fingertips. Starting your blades is as easy as pushing a button. The seat is adjustable, as are the steering handles so your ride will always feel like the perfect fit. Take it for a spin and feel the tighter steering and more precise control. Our steering dampening system gives you better responsiveness and maneuverability. The Reaper® rear tires add stability and traction. And the adjustable foot pedal and twistable Deck-Dial™ knob let you set your cutting height quickly for a perfect cut time and time again. A smooth-riding thoroughbred like the Maverick makes it easy to take control of any yard.

Choose Your Deck. Choose Your Engine.

Bad Boy continues to redefine residential mowers with the Maverick Zero-Turn Mower. It's unlike anything else in its class, with commercial-grade strength, ruggedness and reliability. And you can customize this zero-turn mower exactly how you want it. Go big with a 60” deck, choose the mid-sized 54” deck, or the more compact 48” deck model. If you need to squeeze into some tighter spaces, this Bad Boy can get in and out of almost anywhere. You can also choose your engine, with quality options from Rehlko and Kawasaki. The Maverick truly is the option that gives you more mower for your money.
