Price: $6,992.00

Description

The Industry Standard for Zero-Turn

The ZT Elite Zero-Turn Residential Lawn Mower has been Bad Boy's most popular mower for a reason. It's built as tough as they come, more comfortable than ever before and loaded with new innovations, all at a great value. It features newly-styled tanks, new cooler and rear covers, new pulley covers, patented independent front suspension and an all-new, upgraded seat. Built to perform day in and day out, it's no wonder this is Bad Boy's #1 selling mower. You get the highest quality cut at an even better price.

Put This Deck to the Test

If you want a durable and tough residential mower, you've come to the right place. ZT Elite was custom made for the demanding homeowner, and it won't bend or wobble under the stress of everyday mowing. It's built on a strong 2? x 2? all-steel rail frame with industry-leading 3/8? steel front forks and a solid steel, all-welded deck. It's the heaviest-built deck you can get in this class of mowers. Formed from heavy-duty 3/16? or 7-gauge steel with reinforced edges, the unique baffling system maximizes airflow for greater grass lift and a cleaner cut. The left- or right-side deck lift pedal makes it easy to adjust deck height for a perfect cut time and time again.

Driving to Be Better
Bad Boy continues to set the standard for customization. The ZT Elite Mower has 2 powerful engines to choose from, including limited-edition options from Rehlko. Known for their reliability, these engines continue to perform year after year, season after season. This model comes equipped with a Commercial-Style Drive Arm Actuator System, class-leading torque, higher horsepower versus the competition and commercially rated hydraulics, unheard of on a residential mower. Class-leading fuel capacity is 6.5 gallons. It's power and performance at an unbeatable value.

Prioritizing Your Comfort
The All-New Independent Front Suspension helps the mower glide over any terrain, creating a smoother cut and a more comfortable ride. It's so smooth, we named it EZ-Ride®. A steering dampening system delivers better steering response and maneuverability. The higher-backed adjustable seat with padded armrests provides a smooth, comfortable ride. A cup holder is also included.
