Description

The redesigned 16TD from Big Tex is engineered for serious work. Featuring a 5-Stage Front-Mount Telescopic Cylinder, it delivers smooth, reliable lifting power for even the heaviest loads. The front-mounted cylinder enhances service access, while a steep 45° dump angle ensures fast, efficient unloading. The advanced dump body design includes reinforced side rails for added strength, and convenient features like the Demco EZ-Latch and full-width toolbox come standard. With available 4' sides, the 16TD can haul up to 16.3 cubic yards—built tough for long-lasting performance.
