Description

Bobcat CT4050 Tractor w/FL9 Front End Loader

OVERVIEW

The powerful and affordable CT4050 compact tractor offers hydrostatic or manual synchro shuttle transmission, and comes standard with four-wheel drive and rear PTO, with optional mid-PTO on the hydrostatic transmission.

The turbo-charged, 50-hp engine of the CT4050, combined with a Category 1 three-point hitch, provides the power you need for heavy-duty implement and attachment work, from mowing and digging to hauling and trenching.
The CT4050, featuring a convenient open workstation with a Roll-Over Protective Structure, is ideal for frequently getting on or off the tractor with ease.
The linked pedal lever option on the hydrostatic transmission model increases rpm as you push the travel pedal, which makes operation feel similar to driving a car and allows for intuitive front-end loader control.
