SALTDogg PRO2500 ELECTRIC POLY HOPPER SPREADER WITH AUGER

Fits trucks with minimum 13,000 lb GVW (gross vehicle weight).

- Double wall poly hopper has a 2.5 cubic yard capacity.

- 12V DC-powered electric drive independent 3/4 HP auger motor, and 1/2 HP spinner motor.
- Handles bulk salt or a 50/50 salt/sand mix.
- In-cab closed-loop controller with independent conveyor/auger and spinner speeds, and vibrator control.
- A high-flow design for consistent coverage at high speeds, with a 5-30 ft spread radius (14 in. poly spinner).
- "Swing away" chute for bulk unloading.
- Vibrator, top screen, fitted tarp, tie downs and remote auger bearing grease kit included.
- Forklift slots for ease of loading.
- Backed with a 2 year warranty.
- Made in the USA.

The SaltDogg PRO2500 Electric Poly Hopper Spreader with Auger is designed for serious commercial and municipal users*. The spreader fits flatbeds, dump trucks, and large pickups (dual rear wheels with 8 ft beds and a minimum 13,000 lb GVW). It features a patented 2.5 cubic yard double-wall poly hopper that won't rust or dent.

The spreader can handle salt or a 50/50 salt/sand mix with its 5-1/4 in. variable pitch full-length auger and stainless steel trough. The auger is driven by an independent 3/4 HP, 12V gear motor. A 200 lb vibrator works with the stainless steel inverted V to keep your material flowing. High-flow design allows for consistent material coverage even at high speeds, and the chute can be adjusted to suit different materials. It also swings away to make bulk unloading easy.

Intuitive in-cab controls let you independently manage auger and spinner speeds and turn the vibrator on/off with the flick of a switch. The spreader comes standard with a top screen, tie downs, and a fitted tarp.

Backed with a two year warranty.
