Reduce Stress & Twisting Forces High clearance split trip-edges operate independently of one another, reducing stress and twisting forces on the plow.

Quad Halogen Headlights New super-bright quad halogen headlights have up to twice the power of typical sealed beam lamps. Get maximum visibility for added safety, and better, faster plowing operations

Horizontal-Truss Moldboard Frame The horizontally trussed structure of the moldboard provides exceptional resistance to bending and bowing, for extra heavy-duty applications. Ten laser-cut steel ribs add exceptional strength to the low-friction poly moldboard.

The horizontal-truss moldboard design provides incredible strength, durability and resistance to bowing. The corrosion-proof HDPE poly moldboard is dent-resistant with less surface friction for easier plowing and greater efficiency. In addition, impregnated color means long-lasting, good-looking appearance. Protection is provided by Hiniker's exclusive split trip-edge design.
