Meadow Creek PR60 Pig Roaster

Choose the revolutionary PR60 Pig Roaster and easily roast a whole pig up to a 250 lb. (live weight) without turning the meat.

Besides whole pigs, this pig cooker can handle anything you'd do low and slow in a regular smoker, including 30-35 pork butts with the second tier grate. Wood or charcoal fired.

The drip pan creates indirect heat, and the roaster's design makes it easy to hold a consistent temperature.

You can add enough charcoal to last for 12-14 hours and with the help of a Guru temperature controller, you can safely leave it unattended while you catch a night's sleep.

These pig roasters are a perfect solution if you want to cook whole pigs and don't want to purchase a second cooker for general smoking.

The optional grill pan turns this roaster into a direct-heat grill for easily grilling hundreds of burgers and steaks in a short time.
